“Every Chiroprapist, Podiatrist & Foot Health Practitioner in the country should have one!”

Victor Fletcher, President of the Alliance of Private Sector Chiroprody & Podiatry Practitioners.

“The Technology is Flawless. We all know what it's like to handle patients' footwear... I would now insist that patients with veruccae, tinea or any infectious condition use this service.”

William Hamilton, F.S.S.Ch.Dip. Pod Med. M.B.C & PA.

Use a Klenz unit to sanitize patients' footwear when they visit your clinic, as an extra, chargeable service. One 8-minute cycle inside a Klenz has an incredibly strong antifungal, antibacterial & deodorizing effect, heavily reducing the risk of infection, neutralizing odor and prolonging the life of the shoe

PREVENT INFECTION AND ODOR

Footwear is a breeding ground for pathogens.

By 'klenzing' shoes you can assure patients that the risk of re-infection is minimized. This removes the reliance on patients to self-treat footwear at home, allowing you to offer patients the most effective shoe treatment to date.

INCREASED PROFITS

Klenz is a low cost, one time investment with no consumables & low power consumption. By charging patients a small amount, the unit will quickly pay for itself & create ongoing revenue for years to come. You can also retail a Klenz Sanitizer directly to your patients. This will QUICKLY INCREASE YOUR PROFITS!

KLENZ is

- 1) Preventative care - helps prevent foot disease.
- 2) Gets rid of bad shoe odor.
- 3) Great additional service to your patients.
- 4) Patients can sanitize at home.

PRODUCT SPECIFICATIONS

Power Consumption : 12 W

Sanitize with Klenz to Minimize the Risk of Infection and Illness to Your Customers. Keep Your Business Environment Clean

With the **Klenz Multipurpose Sanitizer**, now you can sanitize anything that previously was rarely or never cleaned because traditional cleaning methods could have damaged it. By sanitizing with the Klenz Multipurpose Sanitizer, you minimize the risk of infection and illness to your customers and clients. Simply place an item inside a Klenz Sanitizer and press START. The advanced Nano Silver & Ozone System bombards bacteria for 8 minutes, ensuring microbes inside a Klenz are eradicated. Klenz Multi Purpose Sanitizers use no heat, liquid or dangerous chemicals. Klenz gives maximum protection against germs with minimum effort and zero risk to your possessions. Klenz has an elegant design, and is about the size of a microwave so it makes a stylish addition to your home or workplace.

Retail Stores

Klenz kills the bacteria and fungal spores that cause bad odors, infections like Athletes Foot and the deterioration of materials.

What makes the Klenz Multipurpose Sanitizer so unique?

Easy-to-Use Klenz is amazingly simple to operate. It quickly becomes a part of any day-to-day cleaning routine.

Fast A sanitization cycle inside a Klenz takes only 8 minutes.

Maximum Effect Klenz has been proven to have extremely high antibacterial & antifungal efficiency. As it sanitizes using circulating air, it reaches areas that other cleaning methods often miss.

Zero Damage As Klenz uses no heat, liquid or corrosive chemicals it poses absolutely no risk to any item.

Saves Money A Klenz is effective for over 10 years, even if used 10 times daily! A Klenz uses no consumables. No sprays, wipes or filters are required . . . ever!

Magic Box System

Nano Silver Radical System

Clean Life KLENZ AMERICA

KNS-110S

This is the standard single unit multi-purpose sanitiser that kills microbes such as bacteria and fungal spores by exposing them to Nano Silver radical and Ozone gas, both incredibly effective antimicrobial agents. This has a strong deodorising effect and items placed inside emerge smelling fresher.

The device uses no heat, liquid or corrosive chemicals, is non-toxic, and poses no risk to any item or any threat of harm to the human body.

No spare parts or maintenance are required.

12 month guarantee.

Don't give bacteria a sporting chance!

The **hi-tech solution** for **drying and sanitizing** all kinds of smelly sports equipment.

WITH KLENZ, YOU CAN ASSURE YOUR SPORTS EQUIPMENT IS **DRY AND BACTERIA-FREE!**

Whether you're running a gym, own a yoga studio, bowling alley, skating rink, or host football, basketball, lacrosse, hockey or tennis games, there's a Klenz product that suits your needs. From the small microwave-sized Klenz Multipurpose Sanitizer, to the Klenz Premium industrial shoe sanitizer, which offers separate cleansing compartments to help ward off athlete's foot. You can sanitize and dry smelly jerseys, equipment, socks, skates, athletic and bowling shoes and more... assuring a bacteria-free post-game environment.

Klenz Multipurpose Sanitizers offers a safe, chemical-free, ecologically sound solution to your sanitizing needs. You simply place an item inside the Klenz Sanitizer and press start; and you can dry and remove 99.7% of bacteria on all of your sporting equipment, jerseys and athletic shoes.

All of our Klenz Sanitizers offer an elegant design and couldn't be easier to install — they simply plug in. Once in place they require virtually no maintenance, even if used 10 times daily for 10 years. One of the many models of Klenz sanitizers can meet the need of your business, gym or locker room.

Klenz has models large or small, with or without windows, suited to fit from 1 pair to 40 pairs of shoes, skates, boots or smelly, damp sports equipment. We have coin operated models too. Call to discuss your specific needs!
